**YOU'LL LIKE US FOR OUR COFFEE.  
YOU'LL LOVE US FOR OUR SERVICE.**

Parks Coffee started with humble origins in the family garage in 1986.

Today, we import thousands of pounds of coffee on a regular basis and roast daily at our Roastery in Carrollton, TX. Our family of 400+ team members is committed to delivering you and your employees a great cup of coffee, a wide selection of pantry items, and fresh and filtered water and ice, and to do it each and every day, better than we did the day before. That's our family promise.

**COFFEE • PANTRY • ICE & WATER • SERVICE**

## OUR FRESH POT PROGRAM

Parks Coffee is the first and only office coffee company to institute a program to provide customers with sanitized and sealed coffee pots each time your route driver visits. This Fresh Pot Program has your route driver return each air-pot and glass pot or carafe to the Parks headquarters to be washed in a three-part, restaurant-style clean area, sanitized, air-dried, and hermetically sealed using a heated oven to protect against dust and germs.

## PARKS PANTRY & MICRO-MARKETS

Yum, yum. Smell those oven-fresh cookies. From our freshly made sandwiches and salads to the cookies, snacks and beverages your employees crave, Parks Pantry and Micro Markets offer an open-air approach to traditional vending. We provide hundreds of satisfying, nutritional, healthy and delicious food and beverage options. Each breakroom is tailored to fit the tastes and needs of your employees and space. And they come with that same great Parks service to keep things clean and well stocked.

## ICE COLD & REFRESHING

Parks water division extends our fresh approach to your breakroom water and ice needs with filtering systems, ice makers and water units. Our service technicians are skillfully trained to install, service and sanitize all commercial ice and water machines. Routine maintenance and cleaning keep your water and ice tasting as fresh as possible.

## PARKS COFFEE MENU

### PARKS COFFEE AROUND THE WORLD

At Parks Coffee, we share your passion for exquisite blends and bold flavors. All Parks Coffee blends are made with 100% Arabica beans. Arabica coffee is grown at higher elevations and produces higher quality beans with more aroma and flavor than the inferior Robusta bean. Many coffees are blends using beans from different regions or countries to layer and complement flavors and notes.

## CRAFTED

### Papa's Prime Roast

#### DARK ROAST

Our darkest Italian-style roast. Bold. Complex with a slightly smoky aftertaste. Made for staying sharp.

Source: 100% Arabica Coffee from Brazil, Honduras & Nicaragua

### Brewnette

French Café

#### DARK ROAST

Bold and semi-sweet with a rich, smooth finish. It's our take on a classic French Roast.

Source: 100% Arabica Coffee from Colombia, Guatemala & Brazil

## SEASONAL

### Donut Time

#### MEDIUM ROAST

Modeled after the donut shop coffee experience, this medium roast is bright and slightly sweet.

Source: 100% Arabica Coffee from Brazil, Honduras & Nicaragua

### Brown Sugar Praline

#### LIGHT ROAST

Nutty and sweet, the crisp flavors of fall and the warm essence of creamy treats come through in this light yet rich blend.

Source: 100% Arabica Coffee from Honduras, Guatemala & Nicaragua

## FLAVORED

### Mama's Pecan Pie

#### LIGHT ROAST

Charming and sweet as pecan pie. A southern classic that tastes smooth and satisfying.

Source: 100% Arabica Coffee from Honduras, Guatemala & Nicaragua

### Nutty Aunt Hazelnut

#### LIGHT ROAST

A tempting treat inspired by our sweet, slightly kooky Aunt Hazel. Smooth, nutty and bright. An interesting, delightful blend.

Source: 100% Arabica Coffee from Honduras, Guatemala & Nicaragua

### Caramel Macchiato

#### LIGHT ROAST

Creamy and mildly sweet. A light fusion of rich caramel and vanilla flavors.

Source: 100% Arabica Coffee from Honduras, Guatemala & Nicaragua

### Eiffel Power French Vanilla

#### LIGHT ROAST

Parisian flavors are decadent yet perfectly balanced, and our French Vanilla is no exception. Enjoy the semi-sweet tour de force.

Source: 100% Arabica Coffee from Honduras, Guatemala & Nicaragua

## ARTISAN

### Smooth Operator

Dark. Daring. 100% Colombian. This nutty, lively coffee has earthy notes with a slight tobacco aroma.

Source: Colombian Excelso

### Tall, Dark & Colombian Decaf

#### DARK ROAST DECAF

Our artisan, 100% Colombian coffee. The same nutty and lively flavor with earthy notes and a slight tobacco aroma, only without caffeine.

Source: Colombian Decaf

### Darker Than Dark

#### DARKEST ROAST

An intensely bold, black roast. Dark, spicy caramel notes, with a touch of smoke and hints of chicory.

Source: 100% Arabica Coffee from Brazil, Honduras & Nicaragua

### Colombia Estates

#### MEDIUM ROAST

A warm combination of two exquisite Colombian Estates. Our team traveled nearly 3,000 miles to bring these two coveted beans together.

### Eco Glossary:

**Bagasse** is made from sugarcane, and are strong, grease- and cut-resistant. Safe for microwave use and compostable.

**PLA** (polylactide) is made from corn. PLA products look and feel like plastic, but are 100% biodegradable and compostable.

**PSM** (plant starch) cutlery is made with 70% renewable materials that can be grown again and again, with a heat tolerance up to 200°.

**Recycled** paper items are made from post-consumer recycled materials that have been used, recycled and repurposed, meaning fewer virgin resources are required and less landfill waste is created.

## **PARKS ICE & WATER SERVICE**

### **Our Commitment to Clean Water is Clear**

Parks Ice & Water was created in 2005 and has become a major component of the Parks Coffee service model; a model that combines clean, crisp filtered water with the rich aromatic flavor of Parks Coffee, delivered right to your breakroom using top-of-the-line point-of-use technology.

We provide filtered water/ice service to all current Parks Coffee customers. Our service ensures that through regularly scheduled machine maintenance, cleaning and filter changes, you will always have clean, clear and refreshing water. Proper cleaning of your water cooler and ice units is imperative in keeping your water source free of bacteria and tasting great.

### **Benefits of Point-of-Use Water Filtration**

- Less cost and hassle of transporting, storing and disposing of large bottles
- No heavy lifting required/less risk of injury due to bottle changing
- No risk of cross-contamination from dirty handling
- No creation of plastic waste from used bottles
- Elimination of bio-film slime enhances taste and minimizes risk of waterborne illness
- No more stacking, storing or lifting heavy, 43 lb / 5 gallon bottles
- Unlimited bottled-water-quality water
- Attractive styling
- The best health and wellness drinking water choice for business professionals

## ICE CLEANING & SANITIZATION

### Clean, Clear, Refreshing Water

Parks Ice & Water offers installation, cleaning and sanitization, as well as routine maintenance to ensure your office has delicious, fresh ice, right when you want it. Should your ice and/or water system need maintenance or repairs, simply contact us at our toll-free number and we will address your icemaker issues within 24 hours with fast, friendly and efficient service.

Our premium filters provide sparkling clear, fresh and premium-quality water and ice for great-tasting beverages. We use a unique filter blend that utilizes activated carbon to reduce chlorine and other offensive tastes and odors that can greatly affect the quality of your beverages.

Water should not taste stale; in fact it should have no taste at all. We can customize a water filtration system to meet your needs, and leave you with just plain fresh water. In addition to changing filters, our technicians provide service and clean machines every 6 months, depending on your water conditions. Routine filter changes keep your water free from mineral build-up and unwanted water imperfections.

### Before Service

Limescale, slime, calcium deposits and more coat the inside of this ice machine. Dust covers the condenser coils, which can hinder freeze times. Storage bins are caked with grime, slime and calcium deposits.

### After Service

Fungus and scale have been scrubbed away, and machine is sanitized and ready to make clean ice. All dust and debris is removed from the coils. Storage bins are sparkling.
